- (b) "Governing Board" means the governing board of a school district
- (c) "Member of an athletic team" means member of any extramural athletic team engaged in athletic events on or outside the school grounds, maintained or sponsored by the educational institution or a student body organization thereof. "Member of an athletic team" also includes members of school bands or orchestras, cheerleaders and their assistants, pompon girls, team managers and their assistants and any student or pupil selected by the school or student body organization to directly assist in the conduct of the athletic event, including activities incidental thereto, but only while such members are being transported by or under the sponsorship or arrangements of the educational institution or a student body organization thereof to or from a school or other place of instruction and the place at which the athletic event is being conducted.

Organized rooting sections, student body members who are spectators, and other spectators, students, who are not actually participating in the conduct of the athletic event, are not members of an athletic team. Participants in a play day or field day activity occurring occasionally during a school year, in which students of one or more particular grade levels from two or more schools of a school district or community college district participate in athletic contests, are not members of an athletic team. Nothing in this section shall be construed as prohibiting a governing board from extending the applicability of the provisions of this article to any such persons, should the governing board elect so to do.

- (d) "Student body organization" means any student organization under supervision of the educational institution or its officers.

Education Code Section 32221. Insurance; Amounts

The governing board of any education institution, except a school district or community college district of any kind or class and Department of Education special schools as defined in Sections 59000, 59100, and 59200, shall provide for each member of an athletic team insurance protection for medical and hospital expenses resulting from accidental bodily injuries in an amount of at least five thousand dollars (\$5,000) for all such services for each member of an athletic team, through group, blanket or individual policies of accident insurance from authorized insurers, or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code. Such coverage shall be for the injury to members of athletic teams arising while such members are engaged in or are preparing for an athletic event promoted under the sponsorship or arrangements of the educational institution or a student body organization thereof or while such members are being transported by or under the sponsorship or arrangements of the educational institution or a student body organization thereof to or from school or other place of instruction and the place of the athletic event;

The governing board of each school district or community college district of any kind or class and the Department of Education special schools as defined in Sections 59000, 59100 and 59200 shall provide for each member of an athletic team insurance protection for medical and hospital expenses resulting from accidental bodily injuries in one of the following amounts:

- (a) A group or individual medical plan with accidental benefits of at least two hundred dollars (\$200) for each occurrence and major medical coverage of at least ten thousand dollars (\$10,000), with no more than one hundred dollars (\$100) deductible and no less than eighty percent (80%) payable for each occurrence.
- (b) Group or individual medical plans which are certified by the Insurance Commissioner to be equivalent to the required coverage of at least one thousand five hundred dollars (\$1,500).
- (c) At least one thousand five hundred dollars (\$1,500) for all such medical and hospital expenses.

Insurance protection in any of the above amounts shall be provided through group, blanket or individual policies of accident insurance from authorized insurers or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code. Such coverage shall be for the injury to members of athletic teams arising while such members are engaged in or are preparing for an athletic event promoted under the sponsorship or arrangements of the educational institution or a student body organization thereof or while such members are being transported by or under the sponsorship or arrangements of the school districts or community college districts or a student body organization thereof to or from school or other place of instruction and the place of the athletic event. In the event that the governing board of a school district or community college district should determine that a member of an athletic team or the parents, guardians or other person having charge or control of a member of an athletic team are financially unable to pay the costs of such insurance protection, then the governing board shall require the costs of such protection to be paid either out of funds of the district or funds of the student body.

The insurance required by this article shall be issued by an admitted insurer, or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code.
